

Second-year IT Programming student at NSCC who ships. I build the tools I wish already existed and use them myself, and I'm most interested in AI. So far that has meant, end to end: LLM classification pipelines, Claude vision + tool-use apps, MCP servers, Raycast and Chrome extensions, and full-stack web apps on Next.js, ASP.NET Core and Postgres. Looking for a co-op or internship where I can ship to real users. Canadian Permanent Resident.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, C#, Python, C++, C, Java, Kotlin, SQL, HTML/CSS
Frameworks	Next.js, React, React Native / Expo, ASP.NET Core MVC, Entity Framework Core, Jetpack Compose, Tailwind, Prisma
AI	Claude & OpenAI APIs, tool use and structured output, vision, MCP servers, LLM classification pipelines, prompt evaluation
Data & cloud	PostgreSQL (Supabase, Neon, row-level security), SQL Server, SQLite, Vercel, Docker, GitHub Actions
Tools	Git & GitHub, Linux CLI & shell, Bun, Figma, Raycast API, Chrome Extensions (MV3), Agile/Scrum

SELECTED PROJECTS

JAMB Smart Search **ONGOING**

2026

- Topic-filtered bank of 20,000+ Nigerian JAMB past questions: ask for “quadratic-equation questions from 2015–2020” instead of only subject and year.
- Pipeline fetches from the ALOC API, classifies topic and difficulty with an LLM (free-first model with a Claude Haiku fallback, validated on samples before full runs) and upserts into Supabase.
- Postgres with row-level security: public read, writes only through a service-role loader; GitHub Actions keep-alive cron.

Next.js 16 · TypeScript · Tailwind · Supabase · LLM classification

HFX TreeWatch **HACKATHON**

2026

- Severity triage for Halifax Urban Forestry's 311 tree requests, built in a 4.5-hour hackathon. Claude vision + tool use scores the hazard 1–5 from the resident's photo, description and address history, with a one-line evidence-based reason and a low-confidence flag.
- Resident reporting flow and a ranked forestry queue; dispatcher overrides keep the original score and an audit trail.

Next.js 16 · TypeScript · Prisma · SQLite · Claude API

RayBridge for Windows **ONGOING**

2026

- Ported an MCP server that exposes Raycast extensions as tools for AI clients (Claude Code, Cursor) from macOS to Windows: 31 extensions / 162 tools now load.
- Diagnosed and fixed platform paths, wrote file-backed storage and clipboard shims, and added a bring-your-own-token fallback for OAuth extensions.

TypeScript · Bun · Model Context Protocol

Logos AI **ONGOING**

2026

AI study companion that turns course material into flashcards and quizzes. Android home-screen widget you can answer quizzes in directly; keyword scoring highlights missed terms with zero extra AI calls.

React Native / Expo · TypeScript · Kotlin

mazidavid.com **SHIPPED**

2026

Five interlinked sites on one Vercel project with a Neon Postgres API, a password + TOTP admin with signed HttpOnly sessions and rate limiting, and a moderated visitor guestbook.

JavaScript · Vercel Functions · Neon Postgres

Rayzam & Spotizam **SHIPPED**

2026

Song recognition inside Raycast and inside Spotify (Spicetify): ffmpeg mic capture, ACRCLOUD / AudD providers, local history with export, Jest tests, one-line installers.

TypeScript · Raycast API · Spicetify · ffmpeg

Chrome extensions **SHIPPED**

2026

Quick Pin, a local-first bookmark launcher; Bookmark Master, which removes duplicates and empty folders and suggests where bookmarks belong with OpenAI.

JavaScript · Manifest V3 · OpenAI API

EXPERIENCE

Freelance Web Developer · Mazi Services

Apr 2025 – Present

Self-employed · Halifax / Dartmouth, NS

- Design and build responsive websites for local businesses (Webflow, Wix, HTML/CSS/JS): intake meetings, requirements, iterations and launch.
- Run free “digital walkthroughs” that audit a business’s site, Google listing, payments, email and automations, then fix what’s losing them customers.
- Contra × Lovable Challenge entry: *Your Customs*, a booking flow for a custom-print shop that cuts owner back-and-forth.

Peer Educator (volunteer) · Concept Tutoring

Apr 2023 – Jul 2024

Lagos, Nigeria · mentored 15+ peers in science, math and tech fundamentals; planned sessions and tracked progress.

EDUCATION

IT Programming Diploma · Nova Scotia Community College

Expected 2027

Halifax, NS · Coursework: Web Application Programming (ASP.NET Core MVC, EF Core), Mobile Development (Android, Jetpack Compose), C++, Advanced Topics (C# async, sockets, delegates, threads), Object-Oriented Programming, Programming in C, Linux, Systems Analysis & Design, Project Management

Senior Secondary Certificate · Mena College

2024

Lagos, Nigeria · best graduating student (July 2024) · reached the quarterfinals of the Interswitch SPAK 5.0 STEM competition

CERTIFICATIONS

Scrum Fundamentals Certified (SCRUMstudy, 2025)

LinkedIn Learning: Network Programming in C · IT Security Foundations: Network Security · Cisco Networking Foundations. Also WHMIS and First Aid / CPR / AED (2025).

COMMUNITY

Soup Project volunteer, Cobequid Food Security Network (2025 – present) · Volunteer videographer, UACWA Black History Month (2026) · Guitarist, Cornerstone Anglican Church (2025 – present) · Writer, blog.mazidavid.com
